

CERAMIC PLUS

ProMax PositiveMold Ceramic Plus Disc Pads are engineered:

- to provide superior braking in a wide variety of driving conditions
- to reduce noise and dust

- to deliver quiet, reduced rotor wear and improved stopping power
- Hardware Kit included

ProMax Positive Mold Ceramic Disc Brake Pads are engineered:

- to reduce noise and dust
- to deliver quiet, reduced rotor wear and improved stopping power
- with a multi-layer Nitrile rubber shim that prevents vibration and noise

- and available in a wide range of numbers

ProMax Positive Mold Semi-Metallic Disc Brake Pads are engineered:

- to promote optimal heat resistance
- to deliver safe and outstanding breaking performance every time
- 100% asbestos free
- with a high level of steel fibre for exceptionally long brake pad and rotor life

Severe Duty METALLIC

ProMax Positive Mold Severe Duty Metallic Brake Pads are engineered:

- with a smoother pedal feel
- with ultra-quiet braking
- with long lasting pad life

- with outstanding heat transfer
- 100% asbestos free
- Hardware Kit included

All brake shoes are manufactured with new steel combined with non-asbestos organic (NAO) formulations to reinforce and strengthen the brake pads. The result is noise-free, soft materials which help extend drum life. All brake shoes are copper free.

To insure a perfect fit, our brake shoes go through rigorous Cam Grinding, which helps release dust build-up.

ROTO MAX PREMIUM BRAKE ROTOR

ProMax Premium Coated Rotors and Drums feature an electrocoating (E-coating) finish that provides long lasting corrosion protection. Engineered:

- for superior braking power

- to fit and perform as good as or better than OE
- specifications offering better quality and value
- with no machining required
