

## FLUID HEATING

Ensure reliable engine starting by using Temro heating products. All aftermarket block heaters are designed, built and tested to the same standards as the OEM line install parts. Additional non-application specific products are also available; including tank heaters, circulation heaters, the heat magnet, and the new stick-on silicone pad heaters.

## BATTERY HEATING

Cold weather reduces battery output and significantly increase the driving time required to recharge. Ensure reliable vehicle starting by using a battery blanket or silicone style battery pad heater to provide much needed heat on cold winter nights.

## INTERIOR CAR WARMER

Plug in your Little Buddy Interior Car Warmer with your block heater to help provide a frost-free, warm vehicle interior the following morning.

## STICK-ON SILICONE PAD HEATERS

### USE TO HEAT:

- Engine Oil
- Transmissions
- Gear Boxes
- Hydraulic Tanks
- Water Tanks
- Marine Engines

### BENEFITS:

- Reliable cold weather starting
- Improved crankability for reduced engine wear
- Immediate lubrication for longer engine life
- Pre-applied adhesive for easy installation
- Built-in thermostat, CSA approved design
