INSTALL A 160,000 KM PLUG

EARN A CUSTOMER FOR LIFE

When you install the spark plug with more power, torque and L/100KM, all while lasting over 160,000 kilometers, you're bound to earn the undying devotion of your customers.

POWER

The Iridium TT's revolutionary 0.4 millimeter centre electrode means less interference to spark growth, fewer misfires, and significantly improved combustion – optimizing power output like never before.

ECONOMY

Invented by DENSO, the Iridium TT Twin Tip Technology delivers more complete combustion, allowing for larger spark concentration and explosion, which translates to more superior fuel economy.

ENDURANCE

The unparalleled Iridium TT is the only spark plug tested to well beyond 160,000 kilometers, with zero loss to performance, contributing to more overall lifetime savings than any plugs available today.
