caméléon

The Caméléon ratchet crimp tool body consists of a sturdy carbon steel frame, adjustable compression wheel and rubberized handles for a comfortable grip. The crimper eliminates the problem of over and under crimping connectors. The ratchet action and quickrelease ensures that crimps are secure and uniform. The built-in safety release allows the tool to release mid crimp if required. The consistent and replicable pressure make this the ideal tool for approved connectors.

401-31 8.7" Ratchet Crimp Tool Body

403-31 10" Ratchet Crimp Tool Body

The Caméléon crimper adapts perfectly with any PICO Caméléon dies. The easy change technology allows the dies to be changed rapidly without the need of any other tool.
